FreedomLITE, PRO, and ETREME Testimonials

“I just wanted to say how impressed I am with FreedomVOICE. We’ve been using our FreedomVOICE system for a little under a year now as our virtual receptionist for our office. When it comes to answering and routing our phone calls the system is more reliable and cost effective than a dedicated receptionist. Our FreedomVOICE system answers all our calls for us in a professional and consistent manner and then transfers the calls to the appropriate person in our office. The virtual receptionist even announces the name of the caller when we pick up the phone. This means clients get through and unwanted phone calls do not. All the feedback from our clients has been positive. FreedomVoice even keeps an accurate record of all missed calls and forwards them to me via email with the caller’s number and voice message. This is a huge time saver@ Thanks FreedomVOICE!”

“You guys are absolutely great! You give such great and personal service. Not only personal, but fun...very fun to work with. I never met a group of guys in business like you. That is the greatest testimonies I could give. Thank you again!”

- David Kent, Downer’s Grove, IL.

Freedom Voice is the best system that we have ever found to assist us in our business short of installing our own system. With the assistance of Freedom Voice we were able to offer services to potential customers that are usually only available to be offered by a larger firm. With the assistance of Freedom Voice we grew almost overnight from the insurance claims company to become deeply involved in insurance from sales to claims administration. We now have multiple offices and use Freedom Voice as our primary vehicle for customer contact with us. We went from a very few voice messages and faxes to hundreds every day. Freedom Voice is user friendly for the most part and most important to us is reliable in service. You have a great company and you can use us as a reference to any potential client.”

- Wiley LeBrun, Jr., President, Universal Risk Insurance Services, Inc.

“Of over 24 million that I did last year. 12 million was through my FreedomVOICE Systems.”

- Brian R. Hutchison, KS

“I have spent a Gazillion Dollars on marketing systems, adverts, you name it. My 800 number has literally helped my business DOUBLE since I got it. Giving my sales channel and customers an easy way to contact me has made a massive positive change. Keep it up!”

- Kevin "Big Money" Sullivan

"I have been using a FreedomVOICE system as a central phone system for our company of 15 professionals for the past year, and it's worked out great. One of the greatest benefits I find is the ability to forward calls to professionals who don't work in our office, however the caller still thinks we all work in one centralized location keeping the professional image. I'm able to give each professional their own unique extension off the 800 number that they can easily administer online with their forwarding numbers and what e-mail address they would like to have their voice and fax messages delivered to. Another feature that is key for us is call screen. When a call is forwarded to one of us, the call is announced to us. This saves us a lot of time by only accepting important calls. Thanks a lot FreedomVOICE. I will continue to recommend your service!"

"Helping your business Prosper"

"This is my second attempt at establishing a toll-free voicemail service. After all the hassles in my first attempt (from a different company, of course), I was worried about what might transpire with FreedomVOICE. Thank you so much for proving that some companies still do make it a point to live up to their promises. I really appreciate the efficient service and comprehensive instructions. I think I spent only 20 minutes setting up the system in a way to perfectly match my needs since I will be using the system primarily as a tool for providing 24 hour information on the homes I have listed."

- Di Dial, GA

"Just wanted to thank you for the great statistics system. I'm still getting the hang of it, but it makes my job so much easier, and my business so much more effective."

- Marcus Gill, Metairie, LA

“Just wanted to let you know how great your system is. We love it!! It is very powerful and easy to configure using the web interface. We love the fact that we can work anywhere in the world and still get calls and manage our voice mail. It’s pretty cool retrieving our voice-mail messages in Europe just by going into internet café! We hope that as we grow, we’ll be able to grow our system through you. As things stand, we don’t see why we would EVER invest in the hardware and support services for a phone/voice-mail system.

- Stephane D., Ontario, Canada
